Thanks Andrew. I'll let my clients know how you envision the meeting. Do you have a list of EPA attendees? I will be talking to my clients about the meeting early this week and it will probably help us prepare and finalize our team for the meeting if we know who will be attending for EPA. Rich

I think that the agenda would be pretty straight forward. We plan to roll out our analysis of the data to suggest ARC's contribution to OU1 contamination. ARC would be able to ask questions (for which we may not yet have answers), and to make any presentation on its analysis. As I suggested before, I do not expect this to be the end of the dialogue, and so didn't anticipate either of us needed full supervisory participation.

Thanks Andrew--I had not heard that. Do you want to take the first shot at an agenda or should I?

Rich

Rich,

I wanted to pass on to you, if you haven't heard already, that NDEP asked to be included in the discussion coming up. I don't know who would plan to attend on behalf of NDEP, but I do know that EPA said that NDEP could join if they'd like. As

I learn more, I'll let you know.
